

CHRISTMAS TREE ORNAMENT

What we used:

- * around 110 crystal beads
- * 2 red pipe cleaners
- * 6" red string

This is a great craft for teaching your little ones about patterns!

1. Bend the 2 pipe cleaners in half and then twist them a couple of times, connecting them in the center. They should now look like a large "X".

2. Thread your beads through one side of the pipe cleaners and then copy the pattern you created on each of the other 3 sides. Stop the beads 3/4" away from the top and turn the pipe cleaner back (see illustration) so the beads will not fall out.

3. Twist the 4 ends together and wrap them around the red string so it forms a loop.
